Medical Officer of Health	...	I. F. MACKENZIE, M.D. (Edin.), D.P.H., D.T.M. & H.
Public Health Inspector, Surveyor, Water Engineer and Petroleum Inspector	...	LEONARD MORLEY, M.R.S.I., M.S.I.A., Cert. Meat and Other Foods.

---

MR. CHAIRMAN, GENTLEMEN,

The Annual Report for 1953 is presented herewith.

Measles continued to be prevalent generally throughout the district during the first half of the year and one hundred and ninety-seven cases were notified. The illness was mild, but one case, complicated by the development of Encephalitis, succumbed.

Two cases of Poliomyelitis occurred. Both were adults and in neither instance did crippling paralysis develop.

With reference to Tuberculosis, it will be noted from the statistics in the text, that there are now 75 established cases on the Register. That represents an increase of six over the total at the end of 1952. Of the thirteen new cases notified, eight are from Foxley Housing Estate. In fact, nineteen of the total cases on the Register reside at Foxley. Many of these persons are of Polish birth; the majority having been diagnosed in other parts of the country and subsequently transferred to the hutments at Foxley.

Your Sanitary Inspector and I would like to take this opportunity of expressing our appreciation of the keen interest taken by members in all matters affecting the health of the district, and for the encouragement given to us in our work throughout the year.

I. F. MACKENZIE,

*Medical Officer of Health.*

Public Health Office : 4, CHURCH STREET, LEOMINSTER.

Telephone No. : Leominster 95.

## SECTION A. STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area (in acres) ... ..	49,727
Population ... ..	6,939
Number of inhabited houses (end of 1953) according to the Rate Books)	2,221
Rateable Value ... ..	£22,142
Sum represented by a Penny Rate ... ..	£85

## EXTRACT FROM THE VITAL STATISTICS OF THE YEAR

	Total	Male	Female
LIVE BIRTHS (Legitimate) ... ..	141	68	73
(Illegitimate) ... ..	7	3	4
	—	—	—
Total ... ..	148	71	77
STILL BIRTHS (Legitimate) ... ..	6	3	3
DEATHS ... ..	84	32	52
DEATHS FROM PUERPERAL CAUSES	Nil		
DEATHS OF INFANTS UNDER ONE			
YEAR OF AGE (Legitimate) ... ..	7	3	4

## COMPARABLE DATA FOR ENGLAND AND WALES, 1953

Birth Rate (per 1,000 estimated mid-year home population) ...	21.3
Birth Rate for England and Wales ... ..	15.5
Still Birth Rate (per 1,000 estimated mid-year home population)...	0.86
Still Birth Rate for England and Wales ... ..	0.35
Death Rate (per 1,000 estimated mid-year home population) ...	12.1
Death Rate for England and Wales ... ..	11.4
Infant Mortality Rate (per 1,000 related live births) ... ..	47.3
Infant Mortality Rate for England and Wales ... ..	26.8

I am indebted to Mr. Leonard Morley, Sanitary Inspector to the Council, for the following statement (Section B to D).

## SECTION B. PHYSICAL CHARACTERISTICS OF THE AREA

The Rural District of Weobley comprises twenty-six Parishes, each of which has a Village or Hamlet as its nucleus.

The District is situated in the North-Western portion of the County of Hereford and the largest centres of the community are Weobley, Foxley Estate, Eardisland, Dilwyn and Canon Pyon.

The principal industry is Agriculture and the major portion of the population is connected directly or indirectly with it, although a substantial number of persons are also employed in various occupations at Hereford City and Leominster.

### WATER SUPPLIES.

The Weobley Water Scheme is at present the only Public Supply in the District. Its source of supply is from the Hurst Springs, Dilwyn, the water being piped to Weobley Village following chlorination at the Hurst Reservoir.

No cases of water shortage were reported during the year.

The average daily flow of water from the springs was 24,089 gallons, whilst the average amount of water consumed is estimated at 13,818 gallons.

Some further difficulties have been experienced in supplying compensation water to the Hurst Farms due to the unreliability of the ram pump. As an interim measure the Council purchased a small portable motor driven pump for use in emergencies.

#### DOMESTIC AND OTHER CONSUMERS.

Individual houses with piped supply	...	...	...	129
Houses supplied from stand pipes	...	...	...	8
Metered Supplies (Schools, Farms, etc.)	...	...	...	6

During the year three additional properties were provided with a piped supply, two existing and one new dwelling.

New connections to water mains are installed by the Council's Water Superintendent, connections being inserted by the use of a patent machine which enables the operation to be satisfactorily carried out in a comparatively short time without the necessity for turning off the mains supply.

#### PARISH WATER SUPPLIES.

The greater portion of the area is still dependent on wells or springs for supplies.

Parts of the Parishes of Mansel Lacy, Yazor and Byford receive a piped supply from the Byford Installation.

Small private piped supplies are in use at Eardisland, Mansel Gamage, Canon Pyon and Staunton-on-Wye but these supplies do not cater for the bulk of the population in these areas.

#### THE RURAL WATER SUPPLIES AND SEWERAGE ACT, 1944.

This Act places an obligation on Rural District Authorities to provide a piped supply of wholesome water within their district and also to make adequate provision for the sewerage or disposal of sewage in rural localities.

During January the Council adopted a report on rural supplies which was presented by the Consulting Engineers (Messrs. John H. Haiste and Partners).

Arising out of the report the Consulting Engineers were instructed to prepare a scheme which would eventually provide piped water supplies in the first instance to the areas of Canon Pyon, Dilwyn, Eardisland, King's Pyon, Norton Canon, Staunton-on-Wye and improvements to the Weobley Supply. This scheme was submitted to the Ministry of Housing and Local Government during May.

After some considerable time a reply was received from Whitehall indicating that the Council should take steps to acquire the Byford Installation, and not to purchase a supply of water in bulk, as was envisaged when the scheme was prepared.

Had the Ministry of Housing and Local Government consented to the Council's original proposal it is considered that it might have been possible to have commenced the installation of the water mains by the end of the year.

The negotiations for the requisition of the Byford Works could then have been dealt with as work on the mains proceeded.

#### WATER SUPPLIES FOR AGRICULTURAL PURPOSES.

During November the Council considered a report relating to a proposed scheme for the installation of a 3in. dia. water main extending from the Leominster Borough Council's main at Hyde Ash to supply farms and small holdings in the Dorestone Area of Birley Parish and parts of Dilwyn Parish.

The report was adopted and authority was given to the Council's Officers and Consulting Engineers to proceed with the preparation and submission of the scheme to Whitehall.

## WATER SUPPLIES FOR COUNCIL HOUSING DEVELOPMENT.

### (a) *Dilwyn Housing Scheme.*

This water scheme, which supplies the Council Houses and several other connections en route was finally completed during the early part of the year. Some considerable delay occurred as a result of the difficulty in obtaining certain fittings for the pressure switch.

The scheme is fully automatic and is functioning very satisfactorily.

### (b) *Eardisland Housing Scheme.*

The installation of the 3in. dia. water main from the Lynch Court Springs to the Housing Site was completed during the end of February. Later in the year the pump house was erected and it was anticipated that the pumping machinery would be delivered early in the new year.

The pipe fitting was efficiently carried out by the Council's staff.

It is the Council's intention to extend this scheme, sometime in the future, to provide a piped water supply to the whole of Eardisland Village.

### (c) *Almeley Housing Scheme.*

During September consideration was given to the extension of the existing water supply scheme in order to cater for an additional thirteen new dwellings.

A scheme involving the use of a high level water tower was submitted to the Ministry of Housing and Local Government at the end of October.

## THE EXAMINATION AND SAMPLING OF WATER SUPPLIES.

During the year 235 water samples were submitted for either chemical or bacteriological examination as follows :

*Table of Samples submitted for Bacteriological Examination.*

	Satisfactory	Unsatisfactory	Total
Public Supply (Wcooley) chlorinated	45	9	54
" " " not chlorinated	2	1	3
Council Houses : Almeley ... ..	5	2	7
Dilwyn ... ..	7	3	10
Bishopstone ... ..	1	—	1
Canon Pyon ... ..	—	1	1
Eardisland ... ..	4	2	6
Norton Canon ... ..	—	2	2
Other Supplies (wells, springs and private supplies) ... ..	62	83	145
	126	103	229

*Table of Samples submitted for Chemical Examination.*

	Satisfactory	Unsatisfactory	Total
Byford Intake (Untreated Water) ...	1	2	3
Byford Intake—Foxley Estate (Untreated Water)	—	1	1
Eardisland—Lynch Court ... ..	1	—	1
Dilwyn—Borehole ... ..	—	1	1
	2	4	6

Out of a total of 145 samples obtained from wells and other private sources of supplies, no less than 83 (or 57%) were found to be unsatisfactory; thus it will be seen that the installation of a public water supply for the area is a fundamental necessity.

## DRAINAGE AND SEWERAGE.

No complaints have been received during the year regarding the Weobley Sewerage Scheme.

Sewer flushing has been carried out from time to time by the Council's staff, when considered necessary.

An important step forward was taken during June when the Council received a report from the Consulting Engineers regarding a proposed scheme of improvements to the sewage disposal works at Weobley.

Subsequently a scheme was submitted to the Ministry of Housing and Local Government for consideration.

During the year several complaints have been received concerning the Dilwyn Village Sewer Outfall, but it is considered that the only satisfactory method of dealing with this problem is by the installation of a Village Sewerage Scheme.

Number of inspections carried out in connection with drainage problems	40
Number of inspections carried out in connection with sewage disposal	49
Number of sewer inspections	12
	—
Total	101
	—

New drainage systems are inspected and approved after having satisfactorily passed a hydraulic test.

## REFUSE COLLECTION AND DISPOSAL.

During the year the collection service has been satisfactorily maintained and in this connection the loyal support of the outside staff is worthy of mention.

The collection vehicle, which is still the most modern in the County, has given every satisfaction.

The service has not been greatly extended during the past year but the volume of refuse put out for collection by householders continues to increase. This may in some measure be due to the fact that more foods are today being sold in wrappers or containers.

Few complaints have been received regarding the tip at Stretford and every effort is made to cover the tipped refuse with soil or other suitable material, when available.

The Council has decided to pay an annual rental for the tip and an agreement with the owner has been entered into.

From January to December 31st the vehicle travelled a total of 6,269 miles. Of this 6,013 were in connection with refuse collection and for the remainder (256 miles) the vehicle was engaged on other work, for which it would have formerly been necessary to employ a haulage Contractor.

The estimated average miles per gallon is 8.1.

## DISINFECTIONS.

Terminal disinfection is carried out as requisite; Formalin gas or Sulphur Dioxide being employed when appropriate.

# THE PREVENTION OF DAMAGE BY PESTS ACT, 1949—RODENT CONTROL.

Throughout the year at bi-monthly intervals the Council's Rodent Inspector has proceeded with a routine survey of the entire area.

Also, Local Authority properties (sewers, refuse tips, etc.) have been treated with poison bait at regular intervals.

Treatment of dwellings and business premises has been carried out on notification or as a result of the district survey.

The Council does not undertake the treatment of farm premises. This is discharged by the Agricultural Executive Committee and constant liaison is maintained with the Committee's Rodent Officers.

When larger offices become available it will be possible to exercise closer contact with the Council's Rodent Inspector, who at the present time is obliged to operate from his residence.

The following table describes the properties dealt with and visits made during the year in connection with Rodent Control.

## RODENT CONTROL—SUMMARY OF INSPECTIONS AND TREATMENTS FOR THE YEAR ENDED DECEMBER 31st, 1953.

	Local Authority	Dwelling Houses	Agri- cultural	All other (including business premises)	Total
Total number of properties in local authority's district ...	8	1718	383	116	2225

## FACTORIES ACT, 1937.

There are no large factories within the Rural Area and the number of persons employed in such factories as exist is quite small.

The list of factories within the Rural Area is as follows :

PARISH					FACTORIES.		Total	Other Premises
					Mechanical with	Power without		
Almeley	...	...	...	...	2	—	2	—
Blakemere	...	...	...	...	—	—	—	—
Byford	...	...	...	...	—	—	—	—
Canon Pyon	...	...	...	...	1	—	1	2
Dilwyn	...	...	...	...	3	—	3	1
Eardisland	...	...	...	...	—	—	—	2
Kinnersley	...	...	...	...	—	—	—	2
Moccas	...	...	...	...	1	—	1	—
Norton Canon	...	...	...	...	—	—	—	1
Preston-on-Wye	...	...	...	...	1	—	1	1
Weobley	...	...	...	...	6	—	6	1
Totals ...					14	—	14	12

The "Other Premises" described in the list of factories include workshops such as tradesmen's premises at which no-one except the owner or owners are employed. These premises are outside the definition of "Factory" as described in the Act.

## SECTION C. HOUSING AND BUILDING DEVELOPMENT

Throughout the year every effort has been made to promote the various housing schemes approved by the Council.

Following the decision to erect 24 houses at Canon Pyon, negotiations were commenced with the owners for the sale of the site approved.

Progress with the schemes for Staunton-on-Wye, Norton Canon and Canon Pyon are to a large extent held up pending approval of the proposed regional water scheme.

The 12 houses under construction at Dilwyn were finally completed between March and June, two of the houses being sold to the County Council.

During December a commencement was made on the external services in connection with the long delayed Eardisland Housing Scheme.

## A SUMMARY OF COUNCIL HOUSING SCHEMES IS AS FOLLOWS :

Parish	Completed	Year	Under Con- struction	Year	Schemes in Pre- paratory stages	Year
Almeley .....	8	1951	—	—	13	1952
Bishopstone .....	2	1945	—	—	—	—
Canon Pyon .....	2	1945	—	—	24	1953

Eardisland .....	—	—	19	1953	—	—
Norton Canon .....	2	1944	—	—	12	—
Staunton-on-Wye	—	—	—	—	32	1952
Weobley .....	14	1949	—	—	41	1952
	1 (conversion)					
	2 (conversions)					
	5 (conversions)					
Totals	48		19		126	

### PRIVATE HOUSING DEVELOPMENT.

During the year 8 new dwellings were completed : also the Council decided to make land at Weobley available for private enterprise house building. Water supplies, electricity and sewers are available near the site.

Wherever possible the utmost assistance has been given by the staff, to promote private building.

### HOUSING ACT, 1949.

A total of 12 houses were improved during the year under this Act and the Council also gave instructions for a scheme to be prepared for converting a further portion of Whitehill House into two houses and one flat.

### COUNCIL OFFICES AND ESTABLISHMENT

Further serious consideration was given to the question of provision of Council Offices. Towards the close of the year the Council's Architects were instructed to submit proposals for the adaptation of part of Whitehill House for this purpose.

When the new accommodation is completed it will fulfil a long felt want, as the Council's staff have for a number of years been obliged to work under difficult and trying conditions.

## BUILDING PLANS.

A total of 81 applications were dealt with during the twelve months ending December 31st as follows :

Plans and Particulars relating to :

1. Council Housing Schemes	...	...	...	...	...	...	...	6
2. Private Houses	...	...	...	...	...	...	...	11
3. Alterations and Additions	...	...	...	...	...	...	...	14
4. Conversion of Houses	...	...	...	...	...	...	...	5
5. Drainage Systems	...	...	...	...	...	...	...	7
6. Schools (Alterations and Additions)	...	...	...	...	...	...	...	1
7. Licensed Premises	..	...	...	...	...	...	...	2
8. Food Premises	...	...	...	...	...	...	...	1
9. Dairy Premises	...	...	...	...	...	...	...	1

17. Poultry Houses	...	...	...	...	...	...	...	4
18. Sites for Reservoirs (Rural Water Schemes)	...	...	...	...	...	...	...	1
19. Sites for Sewage Disposal Works	...	...	...	...	...	...	...	1
20. Tool Sheds	...	...	...	...	...	...	...	3
21. Water Schemes	...	...	...	...	...	...	...	1

Total ... 81

## TOWN AND COUNTRY PLANNING.

Nothing further has been received from the County Planning Committee following the representation made in 1952 with a view to delegated powers being given to the Council under Part III of the Act of 1947.

Now that the County Development Plan has been approved, it is suggested that District Councils should be given greater responsibility for dealing with local development.

## CIVIL BUILDING CONTROL.

In the year under review building licenses were issued covering the erection of 6 private dwellings. Licenses covering repairs, alterations, conversion and demolitions to existing dwellings were issued to a total value of £8,850 0s. 0d.

## STORAGE OF PETROLEUM SPIRIT AND CARBIDE.

Towards the end of the year petrol storage capacity amounted to 23,300 gallons.

There are six petrol filling stations and 32 private storage tanks licensed for petroleum spirit.

No licenses were issued during the year for the storage of carbide.

## HOP PICKERS' DWELLINGS.

Number of farms having accommodation for Pickers ... 3

Number of visits made during Hop-picking ... 20

A number of defects were in evidence at one farm and the various matters were taken up with the farmer concerned.

No cases of notifiable disease occurred among the pickers during the season.

SECTION D. INSPECTION AND SUPERVISION OF FOOD.

MILK SUPPLY.

The control of milk supplies is administered by the National Agricultural Advisory Service.

SCHOOL MILK.

By arrangement with the County Council, samples of milk are obtained and submitted for examination where supplies are undesignated.

Number of Bacteriological Samples taken	...	...	...	37
Number of Biological Samples taken	...	...	...	10
			Total	<u>47</u>

SLAUGHTERHOUSES AND BUTCHERS SHOPS.

There are three Private Slaughterhouses in the area, all of which are closed.

There are also three Butchers' Shops of which all are licensed in accordance with the provisions of Section 14 (1) (b) of the Food and Drugs Act, 1938.

THE MANUFACTURE AND SALE OF ICE-CREAM.

There are no ice-cream manufacturing premises in the area. All ice-cream sold is obtained in pre-packed wrappers from reputable manufacturers and stored in refrigerator containers prior to sale.

Eleven premises are registered for the sale of ice-cream in accordance with the provisions of Section 14 of the Food and Drugs Act, 1938.

FOOD PREMISES.

The list of food premises within the rural area is as follows :

<i>Premises.</i>							<i>Number</i>
Bakehouses	...	...	...	...	...	...	3
Butchers' Shops	...	...	...	...	...	...	3
Grocers' Shops		...	...	...	...	...	21
Inns and Hotels	...	...	...	...	...	...	23
Snack Bars	...	...	...	...	...	...	1
					Total	...	<u>51</u>

## FOOD CONTROL.

The following food, which, after inspection was considered to be unfit for human consumption was voluntarily surrendered by the owners and was destroyed :

FOOD.	QUANTITY.	CONDITION.
Tinned Peas ...	1 lb. 3 ozs.	... Blown Container.
Tinned Chicken Soup ...	15½ ozs.	... Blown Container.
Pork ...	30 lbs.	... Internal Putrifaction
Beef ...	78 lbs.	... Internal Putrifaction

## SECTION E. PREVALENCE OF INFECTIOUS DISEASE

### ANALYSES OF TOTAL NOTIFIED CASES ACCORDING TO AGE.

DISEASE.	AGE OF PATIENT.								Total
	0—1	1—2	3—4	5—9	10—14	15—24	25 and over	Unknown

Pneumonia ...	1	—	—	—	—	—	—	—	1
Dysentery ...	—	—	—	—	—	—	—	—	—

## TUBERCULOSIS.

At the end of 1953 the Tuberculosis Register contained the names of thirty-eight males and thirty-seven females who normally reside within the district.

During the year five cases were transferred to the Register from other districts and thirteen new cases were notified, ten on account of pulmonary tuberculosis and three because of the presence of the disease in parts of the body other than the lungs.

During the same period four persons suffering from tuberculosis left the district, three died and five recovered.

## DIPHTHERIA IMMUNISATION.

The following figures are presented through information supplied by the County Medical Officer :

Number of children who were primarily immunised against diphtheria in the 12 months ended 31st December, 1953, and those who were given a reinforcing injection :

Age at date of final injection.				Reinforcing injections.
